

MATH210 - Linear Algebra

Instructor: Dr. Smith
Room: A104
Schedule: Monday / Wednesday, 12:00-13:20

Course overview

This course introduces systems of linear equations, matrices, vector spaces, determinants, eigenvalues, eigenvectors, and diagonalization.

Assessment schedule

Title	Type	Due	Weight
Homework 1	Assignment	October 5, 2026 at 20:00	10%
Quiz 1	Quiz	October 12, 2026 at 12:00	10%
Midterm Exam	Exam	October 26, 2026 at 12:00	30%
Project Report	Project	November 16, 2026 at 18:00	20%
Final Exam	Exam	December 14, 2026 at 10:00	30%

Topics

Matrices; Gaussian elimination; Vector spaces; Linear independence; Basis and dimension; Determinants; Eigenvalues and eigenvectors; Diagonalization.

Policy note

Students may use AI tools for explanation and practice generation, but submitted solutions must be their own work unless an assignment explicitly says otherwise.
